No. 437 EVERY WEDNESDAY JULY 9, 1969 (1961年8月22日第三種郵便物認可) ★ Price 15 yen (5 cents)

Marshal Kim Il Sung, the respected and beloved Leader, received on July 1 the delegation of the General Federation of Iraqi Trade Unions which visited the DPRK.

Premier KIM IL SUNG Receives Delegation of General Federation of Iraqi Trade Unions

PYONGYANG, July 1 (KCNA) —Comrade Kim Il Sung received today the delegation of the General Federation of Iraqi Trade Unions on a visit to our country.

Present there were the members of the delegation headed by Bedan Fadhel, General Secretary of the General Federation of Iraqi Trade Unions.

Chun Chang Chul, Chairman of the Central Committee of the General Federation of Trade Unions of Korea, was also present on the occasion.

Comrade Kim Il Sung had a friendly talk with the guests.

Premier KIM IL SUNG Receives New Ambassador of United Republic of Tanzania

PYONGYANG, July 1 (KCNA) — Premier Kim Il Sung received today Salim Ahmed Salim, new Ambassador Extraordinary and Plenipotentiary of the United Republic of Tanzania to our country.

Pak Sung Chul, vice-Premier and Minister of Foreign Affairs, was present on the occasion.

Premier Kim Il Sung had a friendly talk with the Ambassador.

Report on WPK Central Committee Plenum

PYONGYANG, July 1 (KCNA) —The Korean Central News Agency issues a report on the Enlarged Plenum of the Central Committee of the Workers' Party of Korea opened on June 27.

The Enlarged Plenum of the Central Committee of the Workers' Party of Korea was held until June 30, starting on June 27.

At the Plenum, Comrade Kim Il Sung, General Secretary of the Central Committee of the Workers' Party of Korea, made an important speech.

Discussing the first item of the agenda **"On Valuing State Property and Invigorating the Struggle for Economization in All Domains of the National Economy,"** the Plenum pointed to the great successes made in the past in improving the work of managing the socialist economy and property and expediting socialist construction.

It also pointed out that with the establishment of the great Chungsan-*ri* method and Daian Work System created by Comrade Kim Il Sung in all domains of the national economy, a new turn has been brought about in improving the management of the socialist economy and valuing and economizing state and public property.

The Plenum also noted unanimously that **"On Some Theoretical Problems of the Socialist Economy,"** a work of genius of Comrade Kim Il Sung, is a powerful theoretical and practical weapon of our Party in guaranteeing victory in overall socialist construction and a programmatic guideline in further improving and strengthening economic management.

It was stressed at the Plenum that today when we are confronted with the task to further increase the economic might and defence capabilities of the country and bring the people's living standards onto a higher stage by thoroughly carrying out the revolutionary line of the Party on stepping up economic construction and defence upbuilding in parallel in view of the obtaining situation, it is a very urgent question to decisively improve economic management and strengthen the struggle for valuing and economizing state property in all domains of the national economy.

The Plenum emphasized that it is an important guarantee for enforcing economic husbandry more successfully and accelerating socialist construction by further improving and strengthening economic management to more firmly establish the Daian Work System and thoroughly carry out the tasks put forth in **"On Some Theoretical Problems of the Socialist Economy,"** a work of Comrade Kim Il Sung.

The Plenum pointed out that the Party organizations of all levels and guiding personnel should thoroughly arm the Party members and working people with the unitary ideology of the Party by giving precedence to the political work in accordance with the requirements of the Daian Work System and thereby establish in them the revolutionary traits of remaining boundlessly faithful to the Party and the Leader and unconditionally defending and carrying through to the last the Party policies under any difficult circumstances and conditions.

Saying that a struggle should be waged on two fronts for successfully carrying on the work of valuing and economizing state property, the Plenum noted that the ideological revolution should be forcefully pushed ahead first of all.

The Plenum put emphasis on promoting the course of the revolutionization and working-classization of the whole society by strengthening the educational work among the working people for rooting out the survivals of obsolete ideas.

It was emphasized at the Plenum that the Party organizations of all levels and guiding personnel should strengthen among the working people the education in the Party policies, education in the revolutionary traditions and communist education with the class education as its main content and education in socialist patriotism so that they may fight devotedly for the country and people in the collectivist spirit of "one for all, all for one."

It called on all the workers to display a high degree of Party spirit, working-class spirit and popular spirit in managing the socialist economy and property, assigned to them by the Party and the State.

Then the Plenum laid stress on strengthening control for successfully carrying on the work of valuing and economizing state property.

Pointing to the importance of the calculation and statistic work and control work in the management of the socialist economy and property, the Plenum underscored the necessity of strictly establishing system and orders in all domains, correctly enforcing regulations conforming to the socialist economic system, deeply explaining and bringing them home to the masses and strengthening the control work so that they may be thoroughly observed.

S. Korean Youths and Students Struggle against Fascist Colonial Rule of U.S. Imperialism, Pak Puppets over Vicious Bid for "3rd Term"

On Jul. 3

South Korea is boiling like a cauldron with the massive struggle of students which has been going on for 20 days against the intrigues of the Pak Jung Hi gang of traitors to stay in "power for a third term through the constitutional amendment" under the manipulation of the U.S. imperialists.

The fighting South Korean youths and students damaged several puppet police waggons and knocked down several hundred puppet policemen in their righteous struggles against the vicious bid of the scoundrels.

The just struggle of the South Korean youths and students for smashing the long-term "office" scheme of the traitors Pak Jung Hi shows every sign of further expansion, inspired by the anti-U.S., national salvation struggle mounting among the South Korean people.

The students of Korea University whose hearts are filled with the determination not to tolerate the colonial rule and military fascist-terror dictatorship of the U.S. imperialists in South Korea, unanimously boycotted the terminal examination and had no sooner attended the school than they held a denunciation rally and declared to the world that they would continue the struggle.

Scared by the righteous struggle of the students of Korea University, the Pak Jung Hi military gang hurriedly let loose hundreds of heavily armed gangsters of puppet mobile police units from early morning and let them wait in front of Korea University and threatened the students by flying even a helicopter over the university.

But, the students of Korea University turned out in files in a demonstration at 11 hours 10 minutes in the teeth of fascist suppression by the enemy, immediately after they held a denunciation rally.

After surging out on to the streets, they upset the attempt of the enemy who ran wild in fascist suppression. They nimbly divided themselves into groups, one of them sweeping toward hundreds of puppet mobile police bandits deployed in Anam*dong* Rotary in front of the university

Brilliant Victory of United Front Line of Our Party Mapped Out by Marshal KIM IL SUNG

—*Rodong Shinmoon's Article*—

Rodong Shinmoon dedicated on June 26 an article headlined "The Brilliant Victory of the United Front Line of Our Party Mapped Out by Comrade Kim Il Sung" to the 20th anniversary of the formation of the Democratic Front for the Unification of the Fatherland (June 25, 1949). Follows a gist of the article:

The formation of the Democratic Front for the Unification of the Fatherland on the personal initiative of Comrade Kim Il Sung, which is the brilliant embodiment of his outstanding ideas of the united front, was an important event of tremendous significance in the development of our revolution and the struggle for accomplishing the historic cause of the independent unification of the fatherland.

The formation of the Democratic Front for the Unification of the Fatherland was a wise measure which reflected the demands of the political situation obtaining in our country at that time and the matured demands of the development of our revolution.

Right after Liberation Comrade Kim Il Sung taught us:

"The political line of our Party at the present stage is to establish a unified democratic regime in our country on the basis of a coalition of all democratic parties and public organizations and convert North Korea into a powerful democratic base for building a unified democratic independent state. Therefore, we should rally the working masses in towns and villages in the struggle for rapidly democratizing the political, economic and cultural life of North Korea on the one hand, and found and strengthen in every way a united front with all the democratic, political parties and public organizations of North and South Korea on the other." ("Selection of Works of KIM IL SUNG," Korean ed., vol. 1, p. 20-21)

Comrade Kim Il Sung, on the basis of a sagacious Marxist-Leninist analysis of the political situation prevailing in our country at that time and the demands of the development of revolution and social and class relations, worked out a historic line on rallying all the patriotic, democratic forces of North and South Korea under a single united front. Under his personal guidance the nation-wide cause of forming the Democratic Front for the Unification of the Fatherland embracing more than 70 political parties and public organizations of North and South Korea was brought to a victorious accomplishment.

The formation of the Democratic Front for the Unification of the Fatherland was an active and revolutionary measure for pushing ahead actively and more forcefully with our people's cause of the unification against U.S. imperialism and for national salvation in view of the grave situation created in the country owing to the intensified aggressive war provocation manoeuvres and nation-splitting schemings of the U.S. imperialists and their lackeys and a historic step that marked a new turning point in strengthening and developing the anti-imperialist national united front movement.

The formation of the Democratic Front for the Unification of the Fatherland is the embodiment of the invariable and unshakable revolutionary stand of Comrade Kim Il Sung based on *Juche* for shattering the machinations of the U.S. imperialists and their running dogs and attaining the peaceful unification of the fatherland and shaping the future of the country and nation entirely in reliance upon the internal forces of the nation and a striking manifestation of the outstanding penetration, revolutionary sweep and refined and seasoned leadership of Comrade Kim Il Sung who has always made a keen penetration into the trends of the development of the situation and boldly solved the matured question and dynamically steered the revolution, firmly seizing the initiative in his hand.

The Democratic Front for the Unification of the Fatherland could be formed in time on a solid basis and rapidly consolidated and developed even under the difficult conditions of a fierce struggle against the enemies at home and abroad, only because it directly inherited the brilliant tradition of the anti-Japanese national united front movement established in the flames of the anti-Japanese armed struggle organized and led by Comrade Kim Il Sung, the respected and beloved Leader.

On the basis of the precious experiences and successes gained in the anti-Japanese national united front movement waged by him from the early days of the anti-Japanese armed struggle, Comrade Kim Il Sung founded the Association for the Restoration of the Fatherland, the first anti-Japanese national united front organization in our country, on May 5, 1936, and proclaimed the great 10-point Programme before the whole world.

Comrade Kim Il Sung said as follows:

"The Association for the Restoration of the Fatherland played a great role in explaining among the broad masses of the people the goal and task of our national liberation struggle and mobilizing and rallying all the patriotic forces of Korea under the banner of the joint struggle for the liberation of the fatherland." ("Selected Works of KIM IL SUNG," Korean ed. vol. 4, 1960 ed., p. 293-294)

The Democratic Front for the Unification of the Fatherland directly carried forward the immortal great exploits and tradition of the anti-Japanese national united front movement organized and guided by Comrade Kim Il Sung during the anti-Japanese armed struggle and was formed on the basis of the successes and experiences gained after liberation in the work of the democratic national united front, shattering the malicious nation-splitting machinations of the U.S. imperialists and their hirelings and subversive, disruptive schemings of factional elements and Right and "Left" opportunists. Thus, the Democratic Front for the Unification of the Fatherland could play with credit its function and role from the first day of its formation as a mighty united front body rallying the forces of the whole nation and has always been able to actively contribute to the fulfilment of the Korean revolution, upholding the revolutionary line mapped out by Comrade Kim Il Sung.

Comrade Kim Il Sung, on the basis of a profound analysis of concrete conditions and realities such as the character of our revolution and its task and the stand and attitude of various classes and strata towards the revolution, formulated the original line of the united front on rallying all forces that can be united on the basis of a worker-peasant alliance led by the working class and all the classes and strata who are interested in the revolution and brilliantly embodied this line in the practices of our revolution.

In mapping out the line of the united front Comrade Kim Il Sung also newly expounded that the united front should serve as a weapon in carrying out the revolutionary task throughout the whole period of the strategic stage of revolution for overthrowing the imperialist rule and achieving the national liberation and building a new society.

The question of establishing a power of the working class based on the united front is a new original problem which Comrade Kim Il Sung set forth for the first time and the way of whose solution was advanced by him in an overall way.

Comrade Kim Il Sung formulated an original line on expanding the social basis of the revolution into the forces of the whole nation and establishing a people's regime led by the working class on the basis of the united front in which the forces of the whole nation are united under the new situation of the development of the revolution and thereby entirely newly defined the form of the regime of the working class. By setting forth the original outstanding idea, theory and line of the united front Comrade Kim Il Sung gave a perfect theoretical and practical answer to the question of formation of the strategic forces and the question of the united front which are of fundamental significance in the revolutionary struggle and made an outstanding contribution to further developing and perfecting in an all-round way the Marxist-Leninist theory and strategy and tactics of the united front.

In the whole course of leading the united front Comrade Kim Il Sung has always ensured the firm leadership of our Party within the united front and correctly carried through the class line and mass line in it and thereby led it to rally close all the forces that can be united on the basis of a worker-peasant alliance led by the working class.

Comrade Kim Il Sung taught us:

"The alliance of workers and peasants should become the political and social basis of the united front." ("Selection of Works of KIM IL SUNG," Korean ed., vol. 3, p. 150)

In strengthening the worker-peasant alliance our Party has pursued a correct class policy to suit different stages of the development of revolution and thereby firmly built the class stronghold of our Party in the countryside and constantly strengthened the worker-peasant alliance on a new basis.

Comrade Kim Il Sung taught us:

"To win victory for the revolution, it is necessary to mobilize all forces that are interested in the revolution, while building up its main force. Only by winning over all forces that can be won over and uniting them into a single political force, will it be possible to thoroughly isolate the counter-revolution, secure the overwhelming superiority of the revolutionary forces over the counter-revolution and lead the revolution to victory." ("Selection of Works of KIM IL SUNG," Korean ed., vol. 4, p. 394-395)

Our Party has always adhered to the principled stand of implementing the class line and mass line in their combination in uniting the masses of all strata and expanding and strengthening the united front.

According to the line put forth by Comrade Kim Il Sung, our Party, strictly proceeding from the general tasks for achieving unity against U.S. imperialism and for national salvation, set the criterion of distinguishing the enemy from the friend, in the stage of anti-imperialist, anti-feudal democratic revolution, by what attitude one takes toward imperialism and rallied the anti-imperialist, patriotic forces, the masses of all strata, except the stooges of imperialism and the enemy of the nation such as landlords, comprador capitalists and pro-Japanese, pro-American elements, and in the stage of the socialist revolution, set the criterion of distinguishing the enemy from the friend by whether one supports socialism or not, and united all the people and all forces who supported socialism and wished to take this road.

It is one of the important strategic and tactical principles maintained all along by our Party in the united front movement to struggle and unite, unite and struggle, while strengthening the Party leadership and thoroughly implementing the class line and mass line.

The correctness of this principle and line of combining unity and struggle within the united front has been demonstrated to the full through steadily consolidated, close co-operation and unity between our Party and democratic political parties and organizations.

Comrade Kim Il Sung taught us:

". . . As the overwhelming majority of the masses of lower strata of all the political parties and public organizations under the united front are working masses, they are our allies who can advance with us to the end.

We should always get close with the masses of lower strata of all the political parties and public organizations and give democratic education to them so that they can become fighters struggling for the unification and independence of the fatherland and the freedom and happiness of the people, joining hands with us." ("Selection of Works of KIM IL SUNG," Korean ed. vol. 1, p. 318)

Proceeding from this, our Party always put main stress on the unity of the rank and file in the united front work and strengthened the ties with the masses, constantly exerting Party influence upon them and thereby educating and inspiring the broad working masses to support our Party and be actively mobilized in accomplishing the revolutionary cause, and maintained the line of realizing the unity of the upper strata through the unity of the rank and file.

The united front line and its strategic and tactical principles put forth by Comrade Kim Il Sung are, indeed, of tremendous theoretical and practical significance for the strengthening and development of the united front movement.

Today our people are facing the historic task to win the complete victory of socialism by actively pushing ahead with revolution and construction in the northern half of the Republic, drive U.S. imperialism out of South Korea, unify the fatherland and thus achieve the nation-wide victory of the Korean revolution.

Comrade Kim Il Sung taught us: **"The basic line of national unification maintained all along by the Government of our Republic is to unify the North and South by the Korean people themselves independently on democratic principles without any interference of outside forces following the withdrawal of all foreign troops from South Korea."** ("The Democratic People's Republic of Korea Is the Banner of Freedom and Independence for Our People and the Powerful Weapon of Building Socialism and Communism," Eng. ed., p. 94)

The revolutionary forces should be firmly built up for driving the U.S. imperialists out of South Korea and overthrowing their colonial rule, destroying the Pak Jung Hi puppet regime and establishing genuine people's power.

The most important task in building up the revolutionary forces in South Korea is to firmly build a Marxist-Leninist Party, the general staff of revolution, and organize the main force of revolution by rallying around it the workers and peasants, the basic classes of society, and form the united front against U.S. imperialism and for national salvation by uniting broad masses of all strata.

When the South Korean revolutionary organizations and revolutionaries correctly push through the great strategic line of Comrade Kim Il Sung on firmly building up the revolutionary force and forming the united front against U.S. imperialism and for national salvation in South Korea and firmly arm the South Korean people with the great revolutionary ideas of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and rally them ever closer around him, a brilliant victory will be won in the South Korean revolution.

Comrade Kim Il Sung taught us: **"What is most important in accomplishing the South Korean revolution and hastening the advent of the unification of the fatherland is to firmly prepare the entire people politically and ideologically and, at the same time, to create all necessary material conditions."** ("Selection of Works of KIM IL SUNG," Korean ed., vol. 4, p. 544)

What is most important in firmly preparing the revolutionary ranks politically and ideologically is to solidly establish the system of the unitary ideology of the Party among the entire Party members and working people and thoroughly revolutionize and working-classize them.

At the same time, we should strengthen the economic might of the country and fully prepare material conditions for the unification of the fatherland by energetically pushing ahead with socialist construction.

The entire Party members and working people, in face of the tense situation in which the U.S. imperialists are more openly machinating to provoke a new war in Korea, should further enhance the revolutionary vigilance, consolidate like an iron wall the defenses of the country, forcefully pushing ahead with economic construction and defence upbuilding and make full preparations to beat down at one blow the enemy whenever and wherever it may pounce upon us and to actively meet the great revolutionary event of national unification, stresses the article in conclusion. **(KCNA)**

(Continued from page 1)

Noting that the line of unified and detailed planning whose correctness and superiority have been proved in practical life should be thoroughly implemented as ever, the Plenum laid emphasis on setting up the strict rule of carrying out the national economy plan on all indices without fail and giving priority to the production and ensuring co-operative products.

The Plenum also put stress on supplying materials to lower units strictly under a detailed plan in accordance with the demands of the Daian Work System.

The Plenum stressed that the guidance of the Party organizations should be further improved in the struggle for valuing and economizing state property.

Then Comrade Hyun Moo Kwang, Secretary of the Central Committee of the Workers' Party of Korea, made the report at the Plenum on **"On Effecting Fresh Innovations in the Development of Fisheries,"** the second item of the agenda, and many comrades took part in the discussion.

Pointing out that under the wise leadership of Comrade Kim Il Sung, the respected and beloved Leader, the material and technical foundations of fisheries have been strengthened in the past period and that the ranks of fishery workers built up solidly and a big development has been made in the production of marine products, the Plenum discussed with deep attention the question of measures for further developing fisheries in the future on the basis of the already made successes.

In order to fully meet the daily growing demand of the people for marine products, the Plenum put forth concrete tasks for building up still more solidly the material and technical foundations of fisheries and modernizing fisheries on the basis of the already laid economic foundation so as to employ diverse fishing methods under all conditions, for effecting new innovations in the pelagic fishing and widely developing the inshore fishing and coastal small-scale fishing and, at the same time, vigorously waging the work of cultivation and fish-breeding through a mass movement.

The Plenum also laid important stress on decisively improving the work of processing marine products and pointed to the necessity of improving the scientific research work and the work of training technical personnel for the development of fisheries.

It was emphasized at the Plenum that the work of labour administration should be improved in the domain of fisheries and a revolutionary discipline and order be strengthened.

Important stress was put also on strengthening the Party guidance to this domain to effect new innovations in the development of fisheries and giving active assistance by the state and economic organs.

Along with this, it was pointed out at the Plenum that revolutionary vigilance should be heightened in all domains to defend rock-firm the socialist gains today under the conditions in which the U.S. imperialist aggressors are ever more undisguised in the manoeuvres to provoke a new war.

The Plenum expressed the conviction that all the cadres, Party members and all the working people will make a great advance in more solidly building up our revolutionary base and radically enhancing the people's livelihood by effecting a new upswing in socialist construction and thoroughly implementing the resolutions of the Plenum, upholding the instructions of the Leader and policies of the Party, rallied close around the Central Committee of the Party headed by Comrade Kim Il Sung, the respected and beloved Leader.

The Plenum adopted relevant resolutions.

First-Stage Construction Project of April 13 Iron Works Completed under Wise Leadership of Marshal KIM IL SUNG

The first-stage construction project of the April 13 Iron Works which is of epochal significance in the development of the ferrous metallurgical industry of our country, was successfully wound up and put into operation on June 20.

The completion of the iron works which was built in accordance with the grand plan of Comrade Kim Il Sung, the respected and beloved Leader, for bringing onto a higher stage our industry based on *Juche* relying on our own raw materials and for building up more solidly the independent metallurgical industrial base and under his personal guidance is a brilliant embodiment of the wise leadership of Comrade Kim Il Sung, the respected and beloved Leader, who has led the Korean revolution along the one road of victory personally pulling through a thorny path of struggle, taking upon himself the destiny of the fatherland and the nation for 40 years and more and of his great ideas of *Juche* and it is a striking demonstration of the correctness and inexhaustible vitality of the line of building an independent national economy and a brilliant fruition of the great creative energy of our people who are infinitely faithful to the call of the Leader.

The iron works which has been built on our own designing and with our own technique, our own equipment and our own efforts and which will put out iron entirely in reliance upon our own raw materials and fuel, will be greatly helpful to speeding up economic construction and defence upbuilding by giving priority to iron industry, the leading branch of the national economy, and further consolidating its independence through the implementation of the programmatic tasks put forth by Comrade Kim Il Sung, the respected and beloved Leader, in his report at the celebration of the 20th anniversary of the founding of the Republic.

Part of the April 13 Iron Works which was newly built in a little more than one year under the wise leadership of Marshal Kim Il Sung, the respected and beloved Leader

The iron works which has been built in a matter of one year or so is giant in scale and all the production processes from raw material mixing and charging to the finishing process are mechanized and automated.

Comrade Kim Il Sung, the respected and beloved Leader, personally inspected this place on April 13 last year and concretely acquainted himself with the geographical conditions there. He made a scientific calculation of the economic advantage of running an iron works there and took into consideration the living conditions of the workers, and chose in person the building site of the iron works.

He also indicated a concrete prospect and ways and means of the construction project and chose the location of buildings and machines and the direction of railway sidings and roads. Later, the Leader gave on-the-spot guidance on four occasions to steer the whole course of the construction project.

The builders who have performed the brilliant feats in the first-stage construction project of the iron works upholding the lofty will of the Leader pledged to build up the April 13 Iron Works into a more giant one in the near future by continuously displaying their revolutionary enthusiasm to the full in the implementation of the on-the-spot instructions of the Leader, not resting on their laurels.

(KCNA)

Proud Successes Made by Heroic Korean Working Class in First Half Year

The heroic Korean working class has made enormous successes in the first half year through a grand increased production struggle which it has waged from the beginning of the year to capture the major heights of the Seven-Year Plan this year ahead of schedule by raising high the flames of the great revolutionary upsurge kindled by Marshal Kim Il Sung, the respected and beloved Leader.

The steel makers of the Hwanghai Iron Works and other metallurgical works of the country have effected innovations in iron and steel production by working in a revolutionary way, tightly holding their tapping rods in the spirit of crushing the U.S. imperialist aggressors, the sworn enemy, while steadily raising the production capacity through the readjustment and replenishment of the existing equipment and enhancing their utility rate to the maximum.

The steel makers of the Hwanghai Iron works boosted in the first half year steel output 47.7 per cent, rolled steel 34.1 per cent and pig iron 22.6 per cent above the results of the corresponding period last year. The production level set for the end of the Seven-Year Plan has thus been surpassed in steel and rolled steel.

Engraving deep on their hearts the programmatic instructions of the great Leader for enhancing the independence of the ferrous metal industry in particular, the furnacemen of the steel shop have pushed up the daily steel output to a record mark since its commissioning by actively introducing advanced work methods, having set themselves this year an increased production target in steel 60 per cent above the results of last year, further expanding production relying on home raw materials and fuel.

Workers and technicians of a Chullima steel shop, not resting on their laurels, advancing, struggling and advancing, in their vigorous strivings to capture the steel height of the Seven-Year Plan this year without fail

The steel makers of the enterprise where Huh Yung Il works have lifted the daily average of pig iron production 43.7 per and steel 31.1 per cent in the first half year over the same period last year, by endeavouring upholding the instructions of Marshal Kim Il Sung, the great Leader, for effecting continued innovations in iron and steel production.

The flames of innovation raged fiercely at cutting faces thousands of feet underground.

The workers in the mining industry have scored great successes in coal and iron ore production by vigorously waging the high-speed tunnelling movement and the movement for creating new work norms and new records.

The workers in the coal industrial domain who captured last year the coal height of the Seven-Year Plan have set up new work norms and wrought new records everywhere by giving spurs to the dashing Chullima (flying horse).

The Red colliers of the coal mine where Kim Dong Joon works wrought the miracle of nearly doubling the coal output compared with the same period last year by actively mechanizing and automating excavation and transport and extensively introducing advanced hewing methods, under the slogan "The Demand of the Party and the Leader Is Our Rated Capacity and Work Norm."

The miners have further reinforced technical equipment and introduced advanced work methods and technical innovation proposals, thus

(Continued on page 4)

South Korea in Whirlpool of Student Struggles Against Treacherous "3rd Term" Bid

(Continued from page 1)

and two other groups slipping in the direction of the Normal College and Commercial College of Seoul University, thereby driving the enemy into confusion.

The students of Korea University wearing headbands with the inscription "Oppose constitutional revision for third-term election" and tightly holding stones in their hands, surged forward like an angry wave showering stones on the puppet mobile police gangsters who were firing tear bombs and spraying poision gas.

Citizens joined their columns, encoraging their struggle.

The puppet police, overawed by the sky-high spirits of the demonstrators, desperately fired tear bombs and attempted to kill students by driving two trucks at mad speed into the ranks of the demonstrators. Witnessing this beastly barbarity, citizens burst into angry shouts of denunciation and many people jumped into the contingents of the student demonstrators, encouraging them.

The demonstration of the students of Korea University continued five hours.

On Jun. 30

Seoul was again turned into a battle field against the U.S. imperialists, the sworn enemy, and their stooges, with the fierce demonstrations of more than 800 students of Korea University, over 1,000 students of Yunse University, over 1,000 students of Kyunghi University and above 400 students of Seoul University.

More than 800 students of Korea University held in the campus this morning a denunciation rally and launched a demonstration at around 10 hours 10 minutes, shouting the slogan "Determindely oppose the constitutional revision for third-term election." They marched towards the puppet "National Assembly" showering stones on more than 500 gangsters of puppet mobile police units who leaped at them, firing tear gas shelles.

More than 1,000 students of Kyunghi University and over 400 students of Seoul University turned out in demonstrations at 3: 30 in the afternoon, attacking the enemy from the rear and dealing blows at it.

Some of students demonstrators who were waging a free fight with puppet mobile police bandits from the campus gates stormed towards the "U.S. Embassy," the colonial "Government-General" of the U.S. imperialists in South Korea, after breaking through the police cordon by employing swift tactics. Frightened by this, the Pak Jung Hi military gang rushed there a puppet mobile unit and set up new limits, running wild in fascist rampage. Not contented with tear bombs, the rascals committed the barbarity of spraying acrimonious poison gas on the demonstrators.

On Jul. 1

Upwards of 1,000 students of Korea University, above 2,000 students of Yunse University and over 2,000 students of Seoul University, and more than 1,000 students of Kyunghi University, over 300 students of Hanyang University and more than 500 students of Hankook Foreign Languages College again held denunciation rallies and powerful demonstrations under the slogans: "Foil the treacherous plot of constitutional revision!" "Determinedly oppose constitutional revision for third-term election!"

Stoned by angry demonstrators, all the window glass of the Sachon Railway Station in Seoul was smashed and the operation of the trains passing this station totally suspended during the battle.

Over 200 Seoul citizens joined the students in the righteous struggle not to tolerate the U.S. imperialist colonial rule and military fascist terror dictatorship in South Korea, bringing the struggle to a new upsurge.

Frightened by the just struggle of the students, the Pak Jung Hi fascist military gang, flew over Seoul a helicopter installed with a loud-speaker and threatened and blackmailed the students, demanding them stop the demonstration. But the students became more inflamed, not heeding it.

Students of Hanyang University and Kongjoo Normal College in South Choongchung Province, held denuniation rallies and evinced their resolve to smash the schemes of the traitorous Pak Jung Hi clique to remain in "power" for a long term.

On Jul. 2

One thousand five hundred students of Taejon Higher Agricultural Specialized School held an indignation meeting and a powerful demonstration against the criminal scheming of the U.S. imperialists and their stooges.

That morning the students boycotted lessons and assembled in the campus. They denounced with surging indignation the criminal act of the traitorous Pak Jung Hi clique, dirty stooges, who are viciously trying to reform the five year higher specialized schools into two year "vocational schools" to make students benighted slaves of U.S. imperialism.

Then the students turned out to the street and staged a demonstration.

Warmly supported and encouraged by citizens of Taejon, the students waged a fierce struggle in high spirit against puppet police bandits who tried to suppress the demonstrators, blocking their road.

The struggle of Seoul students for smashing the long-term "office" scheme of the traitorous Pak Jung Hi clique engineered by the U.S. imperialists was participated in by students of Seoul University, Dongkook University, Kyunghi University, Korea University, Yunse University, Joongan University, Hankkok Foreign Languages College and Kunkook University and Dankook College.

The students of Yunse University who occupied and destroyed a puppet police box in yesterday's demonstration, inflicting a big blow on the enemy, continued a powerful demonstration, stoning puppet mobile police rascals. The students adopted before launching the demonstration a letter to the entire South Korean students of universities and colleges and a letter to the entire South Korean pressmen, appealing to them to rise up as one in the struggle against the enemy.

In Seoul the students knocked down 77 puppet police cars and suppressive tools.

Some 2,000 students of Seoul University assaulted upon the puppet police force on 10 occasions, damaging two puppet police waggons by stones destroying, two poisonous gas sprayers.

The South Korean youths and students knocked down 185 puppet policemen by stones.

On Jul. 3

The massive struggle of the students in Seoul was participated in by the students of Kunkook University, Sunggyoonkwan University, Yunse University, Seoul University, Korea University, Dongkook University, Hankook Foreign Languages College, Woosuk College and Soongsil College.

The Pak Jung Hi military gang, the running dog of the U.S. imperialists, mobilized again police helicopters to suppress the students and committed the thrice-cursed outrage of arresting over 120 students.

But this last-ditch efforts of the scoundrels only added fuel to the flames of the struggle of the students who are determined not to tolerate the colonial rule and military fascist-terror dictatorship of the U.S. imperialists in South Korea.

More than 2,000 students of Yunse University in Seoul held on July 1 a denunciation rally and powerful demonstrations against the long-term "office" scheme of the Pak Jung Hi fascist military gang, a running dog of the U.S. imperialists, shouting slogans and waged a fierce stone-hurling battle against 200 gangsters of a puppet mobile police unit.

Some 500 students of Woosuk College including co-eds in Seoul on July 3 clashed with the puppet police in a street demonstration against the proposed "constitutional amendment."

(Continued from page 3)

raising the efficiency of blasting per shift and the index per rock drill, which has led to innovatory successes in ore production.

The Red machine builders in the domain of the engineering industry, the core of the heavy industry and base for technical progress in all branches of the national economy, have sent to the economic construction and defence upbuilding sites far more highly efficient machines and equipment than the results of the same period last year.

The Chullima factories where Kim Jong Sung and Kim Kyung Myung work, the Chullima Daian Electric Machine Factory, the Kiyang Tractor Factory and other machine-building plants in different parts of the country markedly increased the production of lorries, excavators, big-size excavators and other heavy-duty machines and precision machines and other machines and equipment, by accelerating their manufacture.

Thanks to the vigorous labour of the machine builders throughout the country, the number of machines has grown and a solid wherewithal has been prepared for technical progress in the country.

The chemical factories in different parts of the country have considerably enhanced the production of chemical fertilizers, insecticides, weed-killers and other kinds of chemicals, under the slogan "Greater Quantities of Chemical Fertilizers and Agricultural Chemicals to Our Socialist Cooperative Fields."

The Red weavers have raised the output of high-quality fabrics by energetically waging a multi-spindle and multi-loom tending movement, upholding the lofty intention of the fatherly Leader who is anxious to clothe the Korean people better.

The Chullima reeling workers of the Chullima mill where Li Joon Hi works reeled 50 per cent more silk than in the same period last year by introducing advanced work methods, helping each other and pulling each other along. Thanks to the endeavours of the light industrial works, the variety of consumer goods and small articles have been remarkably expanded during the first half year and the supply of high-quality daily necessaries has increased compared with the same period last year.

Brilliant successes have also been reported from other domains of the national economy such as building material industry, transport, forestry and fishing industry.

In this period, construction projects for consolidating still further the foundation of the independent national economy of the country have made headway on a large scale in all parts of the country, recording enormous successes.

The heroic working class of the northern half of the DPRK which has made enormous successes in production and construction in response to the call of the Leader in first half year is firmly resolved to achieve greater successes in labour in the second half of the year, striving to arm itself more firmly with the great revolutionary ideas of Marshal Kim Il Sung, the great Leader of the 40 million Korean people and become revolutionary fighter boundlessly faithful to the Leader.

Month of Anti-U.S. Joint Struggle for Withdrawal of U.S. Imperialist Aggressor Troops from S. Korea (*June 25-July 27*)

World People Are with Korean People

Peace-loving peoples the world over are now vigorously marking the Month of the Anti-U.S. Joint Struggle for the Withdrawal of the U.S. Imperialist Aggressor Troops from South Korea (June 25-July 27), expressing militant support to and solidarity with the Korean people in their just struggle for an independent, peaceful unification of Korea.

U.S. imperialism is the sworn enemy of the Korean people, the principal force of aggression and war, destroyer of peace, the most barbarous, vicious cannibal of the 20th century and the No. 1 enemy of mankind.

Now, wherever they stretch their tentacles of aggression, the U.S. imperialists with warlike Nixon as its boss are repeatedly sustaining king-size punches at the hands of the revolutionary peoples of the world.

VIETNAM

A meeting was held in Hanoi, the capital of the Democratic Republic of Vietnam, on the evening of June 25, on the occasion of the Month of Anti-U.S. Joint Struggle for the Withdrawal of U.S. Imperialist Aggressor Troops from South Korea.

The meeting jointly sponsored by **the Central Committee of the Vietnam Fatherland Front, Vietnam Asian-African Solidarity Committee and Vietnam-Korea Friendship Association, was attended by Le Thanh Nghi, Member of the Political Bureau of the Central Committee of the Vietnam Workers' Party and vice-Premier; Ha Huy Giap, President of the Vietnam-Korea Friendship Association, and other representatives of various political parties and mass organizations.**

Also present at the meeting was Nguyen Phu Soai, deputy-Head of the Special Representation of the Republic of South Vietnam in the DRV.

Invited there were Hong Jai Sun, Ambassador, and staff members of the DPRK Embassy in the Democratic Republic of Vietnam.

Nguyen Thi Luu, vice-Chairman of the Vietnam Asian-African Solidarity Committee made a speech at the meeting.

She praised the big successes recorded by the Korean People's Army and the Korean people under the correct leadership of the Workers' Party of Korea headed by Marshal Kim Il Sung in the great Fatherland Liberation War against the U.S. imperialist aggressors 19 years ago.

She sternly condemned the U.S. imperialists for scheming to perpetuate their occupation of South Korea and turning it into a colony and military base to prepare a new war against the Democratic People's Republic of Korea.

Denouncing the intensified war preparations and multiplying provocations against the Democratic People's Republic of Korea by the U.S. imperialists and their henchmen, the Pak Jung Hi puppet clique, Nguyen Thi Luu pointed out that the occupation of South Korea by the U.S. imperialists lies at the root of all sufferings of the South Korean people and of the unstable situation and permanent tension in Korea.

She expressed deep sympathy with and unreserved support for the Korean people's struggle against the U.S. imperialists and their stooges and for the defence of national independence and the unification of the fatherland.

ALGERIA

The Algerian National Liberation Front held a press conference recently in connection with the opening of the "Month of the Anti-U.S. Joint Struggle for the Withdrawal of U.S. Imperialist Aggressor Troops from South Korea."

Hanging side by side in the press confereace hall were flags of the DPRK and Algeria.

Join in chopping the head and limbs off U.S. imperialism !

Melamara, Director of the External Relations Department of the Algerian National Liberation Front, spoke first on the occasion.

He said: The courageous Korean people who are ready to defend the sovereignty and dignity of their country and freedom are not a people who resign themselves to any rule of subjugation or slacken vigilance. In the incident of the spy ship "Pueblo" the U.S. imperialists were compelled to officially apologize to the Democratic People's Republic of Korea. The U.S. imperialists infiltrated their spy plane "EC-121" into the territorial air of the DPRK. Needless to say, this spy plane could not escape a self-defensive measure of the highly vigilant Korean People's Army. These despicable aggressive acts evoked and are evoking indignation among all the peace- and freedom-loving peoples.

He went on to say: For the Algerian National Liberation Front and the Algerian people, the "Month of the Anti-U.S. Joint Struggle for the Withdrawal of U.S. Imperialist Aggressor Troops from South Korea" is an occasion not only in reaffirming their friendship with the Korean people but in strengthening solidarity with the peoples of Korea, Vietnam, Mozambique, Angola and Palestine and all other peoples who are struggling for freedom and dignity in all regions where the imperialists are entrenched and their puppet regime is set up.

This month will also be an occasion in appealing to all the progressive peoples, socialist countries and revolutionary forces to form an anti-imperialist united front and particularly defend the independence of the people who defeated imperialism and colonialism.

The Algerian people who shed much blood for the dignity and freedom of their country will voice as ever powerful solidarity with the Korean people, he stressed.

Yang Moon So, Ambassador of the DPRK to Algeria, spoke next.

UAR

The National Peace Council of the United Arab Republic decided to mark off in the UAR a "Month of Support to the Anti-U.S. Struggle of the Korean People" and issued a statement denouncing the U.S. imperialists' aggressive schemes against the Korean people, on the occasion of the "Month of the Anti-U.S. Joint Struggle for the Withdrawal of U.S. Imperialist Aggressor Troops from South Korea."

The statement said that the brave Korean people opened a new epoch in human history by struggling staunchly against the aggressive policy of the U.S. imperialists.

The courageous struggle of the Korean people and the Korean people's resolution to liberate the country and inflict a defeat on the aggressors, wrought a miracle in which imperialism boastful of being militarily "strongest" in the world was defeated by the people of a small country, it said.

Today the Korean people are winning one victory after another, such as in seizing the spy ship "Pueblo" and shooting down a U.S. imperialists' spy plane and are striving to build the country as a happy socialist paradise, despite all kinds of provocative manoeuvres of the enemy, it noted.

June 25—this day gives a serious lesson to all the fighting peoples and it reminds again the aggressors and imperialists that they are destined to meet their defeat and doom.

The statement demanded that the U.S. imperialists get out of South Korea at once.

ITALY

A letter of solidarity addressed to the working people of Korea was adopted at **the 7th Congress of the General Confederation of Labour of Italy** which was held recently.

The letter wished the working people of the Democratic People's Republic of Korea greater successes in the socialist construction of the country. The General Confederation of Labour of Italy reaffirms its solidarity with the Korean people who are struggling for the unification of the fatherland, the letter noted.

It expressed support to the South Korean patriots who are waging a gallant struggle against the reactionary rule of the U.S. imperialists and their lackeys.

For the preservation of peace in Asia, the U.S. imperialist aggressor troops, the main obstacle to the unification of Korea, must withdraw from South Korea and the Korean people be let to decide their destiny freely by themselves, the letter emphasized in conclusion.

"People's Korea" Readers Demand U.S. Withdrawal

On the occasion of the Month of the Anti-U.S. Joint Struggle for the Withdrawal of the U.S. Imperialist Aggressor Troops from South Korea (June 25-July 27), readers of "the People's Korea" are vigorously joining the peace-loving peoples of the world in exposing and denouncing the horrifying criminal acts of the U.S. imperialists and their stooges Pak Jung Hi fascist military gang against the Korean people.

The readers are dispatching letters to "the People's Korea," expressing unreserved support to and militant solidarity with the Korean people in their just struggle for an independent, peaceful unification of Korea.

The editorial department of "the People's Korea" expresses its heartfelt thanks to them for militant letters. Because of limit of space only two of the letters are printed here.

British Communist Party

The following is a letter from Jack Woddis, Director of the International Department of the Communist Party of Great Britain:

I would like to express my solidarity with the people of Korea and the 600,000 Korean citizens in Japan on the occasion of the June 25-July 27 "Month of the Anti-U.S. Joint Struggle for the Withdrawal of the U.S. Imperialist Aggressor Troops from South Korea."

I am only too aware of the necessity to develop the campaign against the U.S. activities in Korea.

The U.S. imperialists continue armed provocations against the Democratic People's Republic of Korea and maintain their military occupation of South Korea where they exercise arbitrary rule, suppressing the progressive forces which are striving for freedom and the unification of the country.

Last year's "Pueblo" incident and this year's incident connected with the spy plane "EC-121" are clear indications of the provocative activity of the U.S. towards Korea.

In South Korea the U.S. forces are maintaining in office a puppet dictatorship which violates all democratic rights and totally ignores the interests of the people. The U.S. forces should be immediately withdrawn from South Korea so that the people of South Korea together with their brothers in the northern half of the DPRK can decide for themselves without any outside interference how to solve the question of the unification of Korea in a peaceful and democratic fashion.

American Servicemen's Union

A letter from Andy Stapp, Chairman of the American Servicemen's Union (ASU) reads:

The American Servicemen's Union sends fraternal greetings to the Democratic People's Republic of Korea hailing the Month of the Anti-U.S. Joint Struggle for the Withdrawal of the U.S. Imperialist Aggressor Troops from South Korea. Since the armistice on July 27, 1953 left Korea divided between the forces of liberation in the Democratic People's Republic of Korea and the forces of imperialism in the U.S.-dominated South Korea, 55,000 American troops have been stationed in South Korea to bolster the puppet regime there. The U.S. ruling class has never forgotten that the war in Korea is not over. And they never miss a chance to show the DPRK Government headed by Premier Kim Il Sung U.S. imperialism's violent hostility to the revolutionary regime in the North. Recently the Pentagon brought this point home by ordering "the longest airborne assault in history" to be held in South Korea. Still stinging from the humiliation of the capture of the spy ship Pueblo, the Defence Department dispatched 2,500 Army para-troopers and Air Force personnel by airlift 8,000 miles from Ft. Bragg, South Carolina in the U.S. to South Korea for maneuvers between March 9 and 20. This new aggressive move by the U.S. Government comes in a series of buildups of military forces in South Korea. After the capture of the Pueblo last year, the Pentagon ordered 8,000 additional troops into South Korea, plus seven Air Force squadrons and two fighter interceptor squadrons.

U.S. imperialism was caught again red-handed on April 15 of this year with the shooting down of the EC-121 spy plane which violated the DPRK airspace. Of course the imperialists are howling that the "North Koreans took advantage of the fact that they are preoccupied elsewhere" with their aggressive war against Vietnam. But of course! That's one of the main and most successful tactics of the oppressed: to take advantage of the distractions of the oppressor and strike a blow for liberation at the time it will be most effective.

Furthermore this particular blow was a splendid one of distracting the oppressor from striking so confidently at Vietnam. And the heroic Korean contingent of the world revolution has done this twice in the fifteen months.

Together with the Vietnamese, Latin American, African and Arab peoples who are struggling against Wall Street's foul scheme of world conquest, the Korean people will surely be victorious and will win in their just struggle to rid the southern half of the Korean nation of all U.S. occupation soldiers and that lackeys of the Pak Jung Hi clique.

Jap. Gov't, Scrap "Immigration Control Bill" at Once!

Of late, the Japanese Government, despite strong daily protests and denunciation by the 600,000 Korean citizens in Japan and the peoples of Korea and Japan, is trying to pass by hook or by crook the criminal "Immigration and Emigration Control Bill" through the current Diet.

The Korean citizens here are continuously keeping up their stubborn struggle for smashing the machinations of the Japanese Government to cook up the so-called "Immigration and Emigration Control Law" and defending all the democratic, national rights including the human rights of the Korean citizens here and their right to national education with the active support of the Japanese people.

Recently, a large number of compatriots of all strata in various parts of Japan who have risen up as one to carry out the resolution of the 5th Session of the 8th Central Committee of CHONGRYUN (the General Association of Korean Residents in Japan) holding aloft the programmatic teachings of Marshal Kim Il Sung, the respected and beloved Leader, in his telegram of New Year's greetings, gathered around the offices concerned of the Japanese Government and waged a mass petition struggle.

At their meetings with the Japanese authorities concerned, the Korean citizens here denounced with surging national indignation the acts of the Japanese Government which is not only persisting in the persecution of and discrimination against the Korean citizens here but also trying to rig up the criminal "Immigration and Emigration Control Law" to further intensify such persecution and discrimination by law in defiance of protests and denunciation by the people of Korea and peoples of the world including Japan.

They strongly demanded the Japanese Government treat the Korean citizens here duly as legitimate overseas citizens of a sovereign state according to international law and international practices, give up the idea of framing the "Immigration and Emigration Control Law" and passing the "Bill for Partial Amendment of the School Education Law" to cook up the "Foreigners' School Law"—the fascist evil laws—ensure the right of the Korean citizens in Japan to national education and resume the repatriation operations at the earliest date according to the just proposal of the Red Cross Society of the Democratic People's Republic of Korea.

Meanwhile, the Japanese people are continuously holding demonstrations in front of the offices of their Government authorities, strongly demanding withdrawal of the "Immigration and Emigration Control Bill," a fascist evil one, and ensure all the democratic, national rights of the Korean citizens here.

Last week, representatives of democratic organizations, local assemblies and inhabitants of all walks of life in Tokyo and various other parts of Japan formed delegations respectively and strongly demanded the Japanese Government authorities give up at once the machinations to frame the "Immigration and Emigration Control Law," a fascist evil law, and guarantee for the Koreans here the human rights, DPRK citizenship and all the other democratic, national rights.

More than 2,040 scholars, men of culture, lawyers and religionists in Hyogo Prefecture jointly issued on June 25 a statement opposing the machinations of the Japanese Government to cook up the "Immigration and Emigration Control Law" and the "Foreigners' School Law" and demanding resumption of the repatriation of Korean citizens here.

Further, noted scholars, men of culture and lawyers in the Tokai districts (Aichi and Shizuoka prefectures) issued on June 27 a joint statement opposing the maneouvres of their Government to fabricate the unprecedentedly fascist evil laws aimed at depriving the Koreans here of their democratic national rights, including their rights to residence and national education.

Foreign students from 24 nations studying in Japan met on July 1 with the Speaker of the Lower House of Japan, strongly demanding the Japanese Government immediately withdraw the fascist "Immigration and Emigration Control Bill."

Over 8,200 scholars, men of culture, lawyers and religionists in Tokyo and prefectures in the Kanto districts issued on July 1 a joint statement against the so-called "Immigration and Emigration Control Bill," and 150 of them lodged protests with the Government authorities. Earlier that day they met at the 2nd Dietmen's Hall of the Lower House and expressed their determination to smash the criminal "Immigration and Emigration Control Bill" to the end, scathingly exposing and denouncing it for its fascist nature.

At the meeting, the representatives of the Japan Communist Party, the Japan Socialist Party, the Komei Party (Clean-Government Party) and the Democratic Socialist Party expressed their determination in their speeches to smash without fail the notorious "Immigration and Emigration Control Bill" and "Foreigners' School Bill" drawn up by the Japanese Government. Noted public figures also addressed the meeting against the fascist evil "bills."

After the meeting their representatives handed the statements to the Speaker of the Lower House, the Chairman of the Upper House and Minister of the Foreign Affairs, respectively, strongly demanding that the Government withdraw the "Immigration and Emigration Control Bill," a fascist evil one.

The Tokyo Metropolitan Assembly, Kyoto, Osaka, Kanagawa and other prefectural assemblies, over 60 in all, reflecting the will of broad strata of the Japanese, adopted resolutions opposing the enactment of the "Immigration and Emigration Control Bill."

The Meeting of Foreign Students in Japan to Demand the Withdrawal of the "Immigration and Emigration Control Bill" issued on July 1 a joint statement, charging the Japanese Government with a vicious attempt to cook up the "law" and demanding its immediate withdrawal.

They represented 24 countries such as the Democratic People's Republic of Korea, Vietnam, China, UAR, Syria, Malaya, Pakistan, Philippines, India, U.S.A., France, West Germany and Argentina.

Representatives of the meeting visited the Diet of Japan, and met with Ishii, Speaker of the Lower House, strongly demanding immediate withdrawal of the "bill" now under discussion.

They declared in the joint statement:

"There is every reason to believe that the 'bill' will cause insecurity to our lives and endanger amicable relationships between Japan and our countries since it places undue emphasis on the 'national interests of Japan' at the expense of the human rights of foreigners in Japan, including us students."

Should the "bill" be voted into law by all means, "our study in Japan will turn out to be futile and our efforts to deepen friendship with Japanese people will be inevitably discouraged," and "this will prove detrimental to Japan's future," the foreign students from 24 countries sternly warned.

World People Are with Korean People

(Continued from page 5)

WFTU

The Secretariat of the World Federation of Trade Unions issued a statement recently on the occasion of the Month of Anti-U.S. Joint Struggle for the Withdrawal of U.S. Imperialist Aggressor Troops from South Korea.

The statement said:

The extreme aggravation of the tension in Korea and constant danger there are attributable entirely to the occupation of South Korea by the U.S. imperialists and their aggressive machinations.

The fierce struggle of the Korean people against the aggression of the U.S. imperialists and for unifying the divided fatherland is a just struggle for defending peace in Korea, Asia and the world.

The WFTU Secretariat holds that in order to preserve and consolidate peace in Korea, the U.S. imperialist aggressor troops must be withdrawn from South Korea without delay and the question of Korea's unification be peacefully solved by the Korean people themselves on a democratic principle without any outside interference, as provided for in the Korean Armistice Agreement.

On the occasion of this month, the statement called upon the workers and the trade union organizations of the whole world to strengthen active solidarity with the Korean people and working class who are fighting to make U.S. imperialist aggressor troops withdraw from South Korea and achieve the unification of the fatherland free from outside interference.

IUS

The Secretariat of the International Union of Students issued a statement demanding the immediate withdrawal of the U.S. imperialist aggressor troops from South Korea on the occasion of the Month of Anti-U.S. Joint Struggle for the Withdrawal of U.S. imperialist Aggressor Troops from South Korea.

The great victory won by the Korean people in the Fatherland Liberation War was a victory of a revolutionary people over the reactionary forces of imperialism and it powerfully inspired the national liberation struggle of the world revolutionary peoples fighting against imperialism and colonialism headed by U.S. imperialism, the statement said.

The IUS Secretariat expresses full support to the just proposal of the Government of the Democratic People's Republic of Korea for independently unifying the split fatherland without any outside interference and reaffirms firm solidarity with the entire Korean people and students in the resolute struggle for realizing it.

In conclusion, the statement appealed to all the member organizations and progressive students the world over on the occasion of the month to denounce the daily intensifying new war provocation manoeuvres of the U.S. imperialists in Korea and express active support to and firm solidarity with the just struggle of the entire Korean people and students.

CORRECTION

Previous issue, page 2, subtitle: Kye Seunp Chan should be Kye Seung Chan.

Eruption of Indignation at U.S. Imperialist Fascist Colonial Rule

PYONGYANG, July 4 (KCNA) — Today's Rodong Shinmoon in a commentary entitled "Eruption of Indignation at Fascist Tyranny of the U.S. Imperialist Aggressors and Their Stooges" says that the torchlight of struggle raised by students of the Law College under Seoul University on June 12 has developed into a mass struggle embracing tens of thousands of university and college students in Seoul and other cities and is now spreading like a prairie fire and at the same time school youth are struggling stubbornly against the Pak Jung Hi puppet clique's "educational system reform" scheme, a product of the colonial obscurantist policy of the U.S. imperialists.

The commentary continues:

The courageous struggle of the South Korean school youth is an anti-fascist democratization struggle against the fascist terror rule in South Korea and for the democratic rights and freedom and a patriotic struggle against the colonial enslavement policy of the U.S. imperialist aggressors and for defending the honour of the nation.

The South Korean school youth have lifted high the torchlight of struggle in the teeth of the enemy's ever more intensified suppression. This shows that they are not dead and nothing can break their indomitable determination to win democratic rights and freedom. This fully demonstrates once again their gallant stamina and unbending fighting determination to struggle for justice to the bitter end braving any sacrifices.

This also proves that the more the suppression is intensified, the stronger the resistance of the people becomes.

It is quite natural that the South Korean school youth should raise high flames of mass struggle.

The U.S. imperialist-manipulated scheme of the Pak Jung Hi clique of long-term "office" is aimed at remaining in the colonial "regime" as dirty puppets of U.S. imperialism. They perpetrate all the more maliciously the criminal acts of selling off the country and betray the nation while suppressing the people, the commentary notes, and stresses:

The school youth who love the country, nation and justice and freedom turned out to the square of struggle for shattering the machination of the traitorous Pak Jung Hi clique to place South Korea under the yoke of ever more harsh colonial enslavement and suppression through the long term "office" scheme.

The commentary continues:

Taken aback by the fierce struggle of the South Korean school youth, the puppet clique, on direct orders of the U.S. imperialists, are running hogwild in suppression, wielding cudgels and firing tear shells and spraying toxic gas and arresting demonstrators right and left by mobilizing heavily armed puppet policemen.

With nothing, however, can the enemy hold in check the struggle of the South Korean school youth.

Noting that victory can be won only through a stubborn struggle, the commentary quotes the following words of Comrade Kim Il Sung, the respected and beloved Leader:

"The struggle for democratic rights and freedom can emerge victorious only when it develops into a mass struggle embracing all the revolutionary forces and the forces opposed to the military fascist dictatorship in South Korea."

The South Korean people should link all the immediate struggle with a struggle for overthrowing the U.S. imperialists and their stooges and develop it into a struggle for establishing a people's regime and promoting national unification, the commentary points out.

Victory is in store for the South Korean people who are waging a sacred national salvation struggle in firm unity, the commentary concludes.
